A Clearer Vision for Modern Eye Care

A super-speciality eye-care network serving Delhi NCR and international patients through modern diagnostics, advanced surgery and coordinated clinical care.

The Sight Avenue at a glance

Founded with a focus on accessible, ethical and technology-led ophthalmology, The Sight Avenue brings together super-specialist expertise, modern diagnostics and advanced surgical systems. Its coordinated care model spans routine eye care, refractive procedures, cataract, retina, cornea, glaucoma, paediatric ophthalmology and oculoplasty.

The hospital also highlights cashless pathways, easy payment options and support for patients travelling from outside Delhi and abroad.

SEE. HEAL. LIVE.

Precision care designed around people, not just procedures.

VISION

To become a pioneering eye-care centre by delivering excellent vision-care services with safety, ethics and clinical excellence.

MISSION

To provide comprehensive eye care to international standards through a dedicated clinical team and modern technology.

WHY IT MATTERS

1

Patient-first approach
Clear diagnosis, tailored planning and follow-up.

2

Technology-led precision
Modern imaging, laser and microsurgical platforms.

3

Access and convenience
Cashless support, EMI and coordinated international care.

Clinical Strength Meets Patient Comfort

Expert doctors, broad treatment capability, smart diagnostics and a streamlined patient journey - brought together in one modern eye-care experience.

One coordinated standard of care

Clinical expertise and patient comfort supported by diagnostics, technology and clear communication.

Super-specialist doctors

Expertise across cataract, cornea, refractive surgery, retina and glaucoma.

Advanced diagnostics

OCT, retinal imaging, visual fields, B-scan and integrated evaluation.

Modern surgical setup

Phaco, femto, vitrectomy capability and modular OT workflows.

Single-day procedures

Many procedures are planned for same-day treatment when appropriate.

Cashless and EMI

Insurance coordination and convenient payment pathways.

International support

Care coordination and language support for travelling patients.

PATIENT JOURNEY

01

CONSULT

02

DIAGNOSE

03

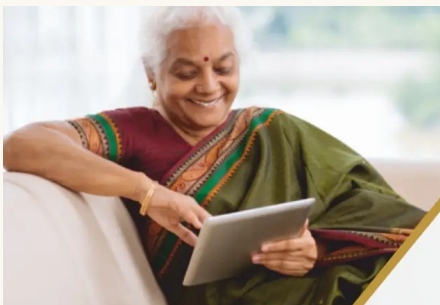

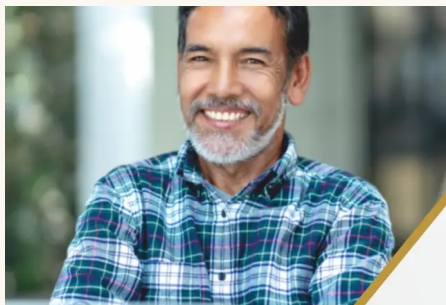

TREAT

04

RECOVER

Comprehensive Eye-Care Portfolio

From refractive vision correction to complex retinal and corneal care, services are delivered through one coordinated clinical network.

ONE NETWORK.
MULTIPLE SPECIALITIES.
One focus: better vision.

01 LASIK / Contoura

Laser correction for refractive errors.

02 ReLEx SMILE

Minimally invasive spectacle reduction.

03 ICL / SILK

Advanced refractive alternatives.

04 Cataract

Phaco, premium IOL and femto pathways.

05 Retina & Uvea

Medical and surgical retina care.

06 Glaucoma

Medical, laser and surgical management.

07 Cornea

Corneal disease, transplant and keratoconus.

08 Squint

Evaluation and surgical alignment correction.

09 Paediatric Eye Care

Child-focused care and early assessment.

10 Oculoplasty

Functional and reconstructive periocular care.

11 Dry Eye

Advanced evaluation and treatment pathways.

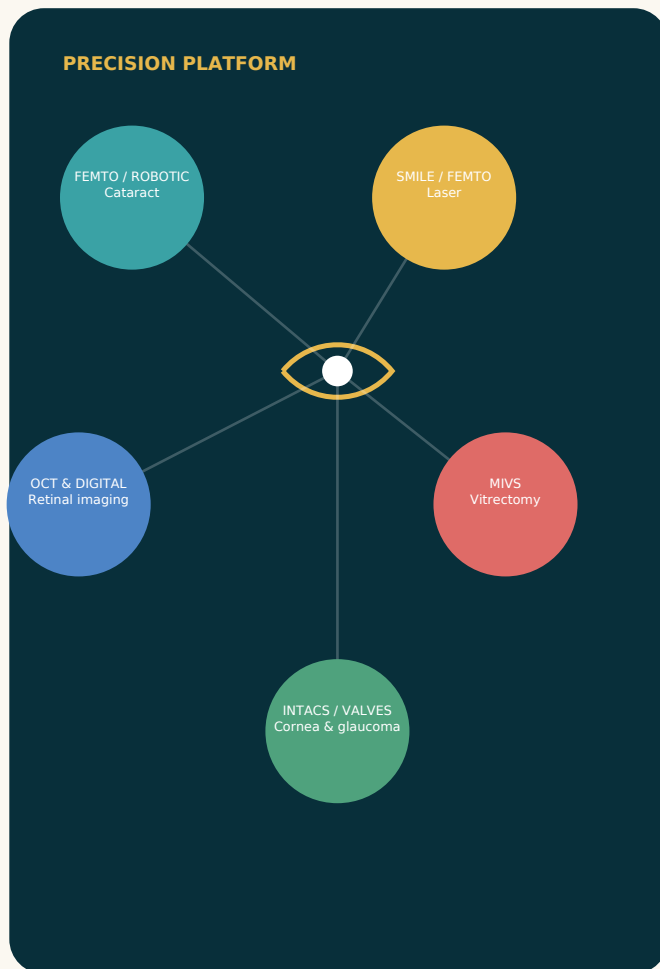

12 Optical / Low Vision

Lenses, optical support and low-vision aids.

Clinical suitability is individual. Procedure selection and recovery depend on specialist evaluation, anatomy and visual goals.

Smart Technology for Advanced Eye Care

A technology stack supporting refractive surgery, cataract, retinal care, keratoconus, glaucoma and precision diagnostics.

01 Consultation rooms

Slit lamps, autorefractors, tonometry and integrated records.

02 Diagnostic wing

OCT, fundus imaging, visual fields and B-scan.

03 Operation theatres

Modular workflows and ophthalmic surgical systems.

04 Precision planning

Technology-supported selection for anatomy and goals.

Leadership & Specialist Expertise

Experienced ophthalmologists and subspecialists across the major eye-care disciplines.

FOUNDER & CMD

Dr. Suraj Munjal

MBBS, MS | OPHTHALMOLOGIST & EYE SURGEON
